Applicant acknowledges that street occupation permits are granted subject to the following conditions:

- All permits are **nonrenewable** and are valid for a maximum period of **ten (10) days**.
- Receptacles may not be stored in any location in which vehicle parking is prohibited.
- Receptacles must be located at least thirty (30) feet from any intersection or crosswalk.
- Under no circumstance shall a receptacle be permitted to obstruct a sidewalk.
- Unless precluded by parking prohibitions, receptacles must be stored on the same side of the street as the applicant's property.
- Applicant must place one **cone, barrel, or similar reflective traffic control device** both in front of and behind the receptacle.
- If the receptacle contains wheels or rollers, then the receptacle may not be placed directly on the road surface. The wheels or rollers must be placed on a **sheet of 3/4 inch plywood** or a similar protective barrier.
- Except during periods of active use, the receptacle must be sealed. Open-top containers must be covered with a **tarp or similar covering**.
