PUBLIC WORKS MONTHLY REPORT FOR APRIL 2015

The salt spreaders were removed from the trucks and stored until next year. SHACOG salt bid required the amount needed for next year: 800 tons pre-season and another 1200 for the winter months. SHACOG is hoping the pre-season delivery will bring a better price.

5 tons of cold patching material was used to patch potholes.

The sweeper was utilized for the first time this year. At this point we will be alternating each week.

A catch basin on Shadewell Avenue was rebuilt due to a collapse and one located on Park Drive. The inlets were cleaned after heavy rains and the “waterway” along Wanley road was cleaned of tree branches to eliminate debris clogging the storm pipes.

Wanley road was scraped and regarded due to large potholes.

Apartment was cleaned by removing the old ceiling tiles and carpet. An electrician is being called in to evaluate the wiring. The code enforcement officer was called in and upon his recommendation the wiring needs brought up to code.

The tennis court fence was removed twice for the camera men to install the equipment. There were a few trees near field 2 which were trimmed to allow the signal to be transmitted to the controls located at the new stadium bathrooms

The stadium field was swept and groomed for the start of the season; the lines were painted for the track events along with the discus poles and netting being installed, Fields 3 & 4 were groomed and lined for the high school baseball and softball seasons (approximately 16 games). Slats were installed in the backstop of field 2, work was continued on the dugouts, and the pool repairs began on the concrete and “scum” gutters.

Respectfully submitted,
Robert Mackewich
